## INDEPENDENT AUDITORS' REPORT

Board of Trustees  
Florida Surplus Asset Fund Trust  
Orlando, Florida

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the FL SAFE Fund and Term Series of the Florida Surplus Asset Fund Trust (FL SAFE), as of and for the years ended December 31, 2014 and 2013, and the related notes to the financial statements, which collectively comprise FL SAFE's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of FL SAFE Fund and Term Series as of December 31, 2014 and 2013, and the respective results of operations and the changes in net position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## ***Other Matters***

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**FLORIDA SURPLUS ASSET FUND TRUST**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2014 and 2013**

**NOTE 1 – NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Florida Surplus Asset Fund Trust (FL SAFE) is a local government investment pool (LGIP) trust fund which began operations on February 5, 2008. FL SAFE is organized under Florida Statutes §163-01, *et seq.* As such a LGIP trust, FL SAFE pools and invests the funds of its Florida local government participants within the Investment Policy, established by the FL SAFE Board, and limitations set forth in FL SAFE's Indenture of Trust and Florida Statutes §218-415, *et seq.*

FL SAFE includes a liquid money market portfolio (FL SAFE Fund) and one or more Term Series portfolios.

Following is a summary of significant accounting policies consistently applied by FL SAFE in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America (US GAAP).

**Measurement Focus**

FL SAFE prepares its financial statements as a special-purpose government entity in conformity with applicable pronouncements of the Governmental Accounting Standards Board (GASB).

In accordance with GASB Standards on *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, FL SAFE is an external investment pool and reports its investments at amortized cost. In accordance with GASB *Standards on Deposit and Investment Risk Disclosures*, FL SAFE discloses certain information regarding credit risk, concentration of credit risk, interest rate risk and custodial credit risk of its deposits and investments. As provided for in GASB standards, the financial statements of FL SAFE are presented as a fiduciary fund type-investment trust fund. The accompanying financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting which is required by GASB.

**Custodian**

BMO Harris Bank N.A. is the custodian for FL SAFE. The custodian is responsible for the safekeeping of all securities.

**Valuation of Investments**

For the purpose of calculating FL SAFE's net position value per share, portfolio securities are valued at amortized cost, which approximates market value. The amortized cost method involves valuing a security at its cost on the date of purchase and recording a constant amortization or accretion to maturity of any discount or premium. The market values of the securities held by FL SAFE are determined on at least a weekly basis using prices supplied from an independent pricing service. These values are then compared to the amortized cost of the securities. In the event that the difference between the aggregate market price and aggregate amortized cost of the portfolio securities exceeds .25%, FL SAFE's Operations Manager will notify the FL SAFE Administrator, who will consider, in consultation with FL SAFE's Board, what action, if any, should be initiated.

**FLORIDA SURPLUS ASSET FUND TRUST**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2014 and 2013**

**NOTE 1 – NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Investment Income**

Investment income is recognized on an accrual basis. Distributions from net investment income are declared daily and paid monthly.

**Income Taxes**

FL SAFE was organized to provide pooling of public funds for local governmental entities in Florida, which are exempt from federal and state income taxation. Accordingly, no provision for income or other taxes is required in the accompanying financial statements.

**Use of Estimates**

In preparing financial statements in conformity with US GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**NOTE 2 – CASH DEPOSITS AND INVESTMENTS**

**Investment Risk Factors**

There are many factors that can affect the value of investments, including custodial credit risk, concentration of credit risk and interest rate risk. FL SAFE via its Board of Trustees has established an Investment Policy to provide the basis for the management of a prudent investment program appropriate to maintain a net asset value per share (NAV) of \$1.00 and a AAAM rating by Standard and Poors.

**Deposits**

At December 31, 2014, FL SAFE Fund had \$42,898,341 in deposit accounts that were fully collateralized by U.S. Treasury notes and U.S. government agency securities. In addition, FL SAFE Fund had \$29,272,857 in uncollateralized deposits at highly rated banks. At December 31, 2013, FL SAFE Fund had \$55,098,378 in deposit accounts that were fully collateralized by U.S. Treasury notes and U.S. government agency securities. In addition, FL SAFE Fund had \$34,213,971 in uncollateralized deposits at highly rated banks. Uncollateralized deposits are only utilized within the allowable limits of the Standard & Poor's rating guidelines for the maintenance of the AAAM rating, and per the Board authorized Investment Policy.

Term Series had \$8,370,824 and \$11,494,266 in deposit accounts that were uncollateralized in a highly rated bank as of December 31, 2014 and 2013, respectively.

All arrangements that include non-interest bearing deposit accounts also include a component that earns interest or earns credits which offset fees. When considered in total, these arrangements have the impact of increasing the net income of the FL SAFE Fund.

**FLORIDA SURPLUS ASSET FUND TRUST**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2014 and 2013**

**NOTE 2 – CASH DEPOSITS AND INVESTMENTS (CONTINUED)**

**Custodial Credit Risk**

The custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, FL SAFE will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that in the event of the failure of the counterparty to a transaction, FL SAFE will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Investment securities for FL SAFE are held at BMO Harris N.A. for safekeeping; as such, the Board believes there is minimal custodial credit risk for its investments.

**Concentration of Credit Risk**

Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. FL SAFE's investment policy calls for diversifying the investment portfolio according to the Standard & Poor's AAAM rating guidelines, so the impact of potential losses from any one type of security or from any one individual issuer will be contained.

The schedules of investments on the following page shows the concentration of each investment held by FL SAFE.

**Interest Rate Risk**

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. FL SAFE attempts to mitigate its interest rate risk by limiting the maturities of its investments.

The maturities of all investments held by FL SAFE are shown in the investment schedules below by specific identification.

**Investments in Securities**

Pursuant to its Investment Policy, FL SAFE may invest in U.S. government treasury securities, U.S. government agency securities, commercial paper, repurchase agreements collateralized with securities valued in excess of the repurchase agreement amount, certificates of deposit and other evidences of deposit with approved financial institutions, obligations of state and local governments and public authorities rated in the two highest rating tiers by a nationally recognized rating agency, and money market mutual funds regulated by the Securities and Exchange Commission and whose portfolios consist only of dollar-denominated securities. With the exception of U.S. government agency securities, the maximum maturity allowed for any investment is 397 days.

**NOTE 11 – CURRENT ECONOMIC CONDITIONS**

The current economic environment presents local government investment pool trust funds with challenging circumstances, which in some cases have resulted in large declines in the fair value of investments, declines in net position from increased share redemptions, constraints on liquidity and reduced investment earnings. The financial statements have been prepared using values and information currently available to FL SAFE.

Current economic and financial market conditions could adversely affect activities in future periods. The current instability in the financial markets may reduce the amount of funds Florida local governmental entities have available for investment in FL SAFE, which in turn would have an impact on funds available for investment and total net position.

This information is an integral part of the accompanying basic financial statements.
